

Final Report for both the **Robert Hampton Scholarship Award** and the **SCAHPERD Scholar Award**.

Robert Hampton Scholarship

This year the committee had four nominees for the Hampton Scholarship. All three candidates were very deserving of this award which made for a close decision. However, all committee members completed the review scoring sheet and returned to the chair. After tabulating, the winner was determined and notified, by mail of the award. While monetary portion of the award has already been given, the student will be recognized at the annual SCAHPERD conference in Myrtle Beach, November 10-12.

Additionally, the committee was charged with creating language that would help in the delineation of criteria to assist in determining the most qualified recipient. Additional items were added to the scoring sheet, specifically targeting student involvement and leadership.

SCAHPERD Scholar

The committee was charged this year with making sure the language for this award was aligned with the operating codes and to adjust criteria to allow for some flexibility within the years of nomination and recognition. Additionally, the membership on the committee needed to be reviewed as there are few individuals eligible to serve on the committee. After careful review and consideration, recommendations were made and send forward to the board for approval.
